

# Internship Program Admissions

Date Program Tables are updated: 8/24/17

**Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program's policies on intern selection and practicum and academic preparation requirements:**

The UCSF Clinical Psychology Training Program offers a two-year full time fellowship comprised of a one-year general clinical psychology internship (APA-accredited) and a one-year postdoctoral clinical and clinical research fellowship, based on the scientist-practitioner model. Graduates are expected to pursue careers emphasizing research and training in academic and academic/research settings, including those affiliated with health and mental health service systems. Over the last ten years, 88% of our graduates have obtained research or academic positions upon leaving our program.

The program is designed to train clinical psychologists who are committed to an academic and/or research career, have a strong record of both clinical and research experience, and are research oriented and want to work sensitively and competently with underserved and vulnerable populations.

The program offers training in health service delivery in a wide variety of clinical settings. In addition, the program provides specialized research training with a faculty mentor in areas including ADHD/behavior disorders, eating disorders, juvenile justice and behavioral health, neuropsychology, posttraumatic stress disorder, substance use treatment research and research-practice linkages, and violence and trauma in adults and children.

In addition to our standard two-year full time pre/postdoctoral fellowship, we have added a half-time internship track through a partial affiliation with the Clinical Science Program in the Dept. of Psychology at the University of California Berkeley (UCB). Please note: only UCB applicants are eligible for this internship-only two-year half time track.

application? If Yes, indicate how many: (Minimum 400 total intervention and/or assessment practicum hours)			
Total Direct Contact Intervention Hours	N	Y	Amount:
Total Direct Contact Assessment Hours	N	Y	Amount:

**Describe any other required minimum criteria used to screen applicants:**

### Application Requirements

- \* a minimum of 400 practicum hours (intervention and/or assessment)
- \* comprehensive exams passed
- \* dissertation proposal approved
- \* a minimum of three years of graduate training
- \* doctoral degree program must be APA-accredited in Clinical Psychology
- \* submission of official graduate degree(s) transcripts

Each applicant is evaluated in the following areas:

- \* clinical training, including experience in assessment and psychotherapy
- \* research interest as documented by training obtained and productivity (especially presentations, publications, and grants)
- \* overall excellence as a psychologist as shown by breadth and depth of experiences and letters of recommendation
- \* appropriateness for faculty research mentor(s) chosen by applicant, as shown by work done relevant to the mentor's research area and familiarity and fit with the mentor's work
- \* progress toward dissertation completion
- \* evidence of accomplishments indicating commitment to an academic and/or research career

## Financial and Other Benefit Support for Upcoming Training Year\*

Annual Stipend/Salary for Full-time Interns	<b>31,382</b>
