The Division of Infant, Child, and Adolescent Psychiatry (ICAP) is part of the Department of Psychiatry at Zuckerberg San Francisco General Hospital and Trauma Center (ZSFG). Its mission is to provide quality, culturally tailored, and trauma-informed mental health services for youth (from birth to age 24) and their families as part of a comprehensive, coordinated approach to care across the developmental age spectrum. ICAP programs and services encompass clinic and community-based direct care and consultation services (within ZSFG clinics, daycares, schools, and other community-based settings), training, and research.
