Emotional Well-Being During the COVID-19 Crisis for Health Care Providers Webinar Series

We know these are difficult times for everyone, especially those of you who are serving patients. We hope you will enjoy the videos from our 10-week webinar series featuring mental health and emotional wellness experts showing how health care providers can reduce personal stress during the COVID-19 outbreak, as well as coping with other disasters. In addition to these hour-long webinars, we have made a series of mini-videos on related topics [1].

We will host another monthly webinar series in the winter, most likely on the first Thursday of the month at noon. In the meantime, we welcome your ideas for speakers and topics. Please email them to elissa.epel@ucsf.edu [2]. You can hear about more well-being events via @Dr_Epel on Twitter [3].

This webinar series is co-sponsored by the UCSF Department of Psychiatry [4], UCSF Office of Alumni Relations [5], Greater Good Science Center at UC Berkeley [6], Mindsight Institute [7], and the John W. Brick Mental Health Foundation [8].
