Research Task Force

Co-chairs: Susanna Fryer, PhD [1], and Susan Voglmaier, MD, PhD [2]

Task force members: Johanna Folk, PhD [3]; Lauren Haack, PhD [4]; Kaja Lewinn, ScD [5]; David Pennington, PhD [6]

The Diversity Committee’s Task Force on Research aims to encourage diversity among the pool of department researchers, as well as research that addresses important topics relating to the diversity of individuals in human populations. The task force meets these objectives by highlighting the best examples of both researchers and research, highlighting relevant funding
opportunities (including minority supplements for existing R01 grants), and providing resources to facilitate the inclusion of diversity in existing projects.

National grants for women and minority trainees

- APF awards [7]
- APF research [8]
- APA fellowships [9]
- ACNP travel awards [10] for minorities and research awards for women
- BRAIN Initiative Advanced Postdoctoral Career Transition Award to Promote Diversity [11]
- HHMI Hannah H. Gray Fellows Program [12]
- L’Oréal USA Women in Science Program [13]
- NIH: Enhancing Diversity in Training Programs [14]
- RWJF Harold Amos Medical Faculty Development Program [15]
- Vilcek Prizes for Creative Promise in Biomedical Science [16]

UCSF grants and other resources

- Center for Aging in Diverse Communities Scientist Program [17]
- Office of Diversity and Outreach listing of diversity grants [18]
- Office of Diversity and Outreach listing of health disparities grants [19]
- RAP: SOS for Underrepresented Faculty [20]
- RAP: Family Support Awards [21]

NIH diversity supplements

Per NIH guidelines [22], an under-represented minority in biomedical research includes:

- The following racial and ethnic groups: African Americans, Hispanic Americas, Native Americans, Alaskan Natives, Hawaiian Natives, and natives of the US Pacific Islands.
- Individuals with disabilities, who are defined as those with a physical or mental impairment
- Individuals from disadvantaged backgrounds. (Individuals who come from a family with an annual income below established low-income thresholds.)

More helpful information about NIH diversity supplements is available from CTSI [23].

UCSF research centers focusing on women and minority populations

- Center for AIDS Prevention Studies [24]
- Center for Vulnerable Populations [25]
- Center of Excellence for Transgender Health [26]
- Center of Excellence for Women’s Health [27]
- Center for Aging in Diverse Communities [28]
- CTSI Community Engagement Program [29]
- Medical Effectiveness Research Center for Diverse Populations [30]
